

Household Inventory

Instructions:

Use this Household Inventory to keep track of how many of your household's regularly used items you have, and what you need to restock.

To begin, write items from your household stockpiles on the lines and then mark in the boxes to note how many of that item you have. Put one line in each box to signify the item is available, and put a second line into each box when it has been used. You can use diagonal lines to form an "X" when items are used, or vertical and horizontal lines to form a "+" when items are used.

Example:

One line means you have it in your house.

Fabric Softener

Two lines means it has been used.

Fabric Softener

Print this Household Inventory multiple times if you need more room.
